## Employment History

2011 - Present

Freelance Web Developer

robjte.de / robjtede.uk

For a many years, I have been teaching myself web design/development and in 2011 I felt I had reached a level to make my skills marketable. I have done work for several individuals and businesses.

My portfolio is available on my website ([robjte.de](http://robjte.de)).

May 2015 - Dec 2015

Websell Masters

websellmasters.com

I spent several months doing web development for Websell. I was creating new sites as well as maintaining and updating older sites made by other people.

As well as HTML, CSS and Javascript, the back-end for all the sites used PHP and MySQL

Sept 2017 - June 2018

The University of Sheffield

sheffield.ac.uk

I've been helping as a teaching assistant in the practical programming classes for several modules including Java, Haskell and Ruby (on Rails).

This has improved my ability to communicate the reasoning behind a programming decision greatly.
